TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, SQL, Basics of C, Python, Java and Microsoft Automation Tools

Frameworks & Libraries: React.js, Node.js, Express.js, Socket.io, Bootstrap

Databases & Tools: MongoDB, Mongoose, MySQL, Git, GitHub, Postman, Compass, Atlas, REST APIs, npm, VS Code, Claude Ai, Chatgpt, Deepseek, GitHub Copilot

Concepts: CRUD operation, MVC Architecture, Responsive Design, Basics Data Structures & Algorithms, Oops Concept, Software Engineering, Fundamentals of Computer Science and Engineering, JWT/OAuth Auth, Vibe Coding, Prompts Engineering

SEO & Performance: Technical SEO, Schema Markup (JSON-LD), Programmatic SEO, Core Web Vitals

WORK EXPERIENCE

Softpro India Computer Technologies (P) Ltd.

Lucknow, UP, India

Internship Trainee — Full Stack Development

Aug 2023 – Jan 2024

- Built and maintained full-stack features using the MERN stack; optimized MongoDB queries and Express.js API endpoints, reducing average response time and improving scalability.
- Integrated real-time bidirectional communication via Socket.io, enabling live notifications and chat features across web application modules.
- Developed reusable React.js components with lazy loading and code-splitting, reducing initial bundle size by ~30% and improving Time-to-Interactive scores.
- Implemented Technical SEO (structured data, schema markup, Core Web Vitals tuning), contributing to measurable improvements in Google Search performance metrics.

Softpro India Computer Technologies (P) Ltd.

Lucknow, UP, India

Summer Intern — Backend Development

Jul 2022 – Aug 2022

- Designed and shipped a Job-At-Mail automation system in Django (MVC), scheduling targeted email dispatches for job listings using Python-based backend logic and ORM-driven data models.
- Applied Git version control and collaborative code practices throughout the project lifecycle.

PROJECTS

RepairWalla – SEO Optimized Appliance Service Platform

- Developed a responsive appliance service platform optimized for Technical SEO, mobile-first design, and search engine visibility.
- Implemented SEO-friendly architecture (schema markup, optimized meta tags, internal linking, service landing pages), improving Core Web Vitals scores.

Notes Keeper – Full Stack MERN Application

- Built a full-stack note-taking app (MongoDB, Express.js, React.js, Node.js) with CRUD functionality, user authentication, and a responsive UI for real-time note management.

Secure Voting Application Backend

- Designed a secure Node.js/Express.js/MongoDB backend for online voting with JWT authentication, role-based access control, and duplicate-vote prevention to ensure data integrity.

Chatwithstrangers.fun – Real-Time Video Chat Platform

- Developed an interactive real-time communication platform with video/text chat, WebRTC integration, and a scalable, performant frontend UI for multi-user sessions.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

Lucknow, UP, India

B.Tech — Computer Science & Engineering

Sep 2023 – June 2026

Board of Technical Education, Uttar Pradesh (BTEUP)

Uttar Pradesh, India

Diploma — Computer Science & Engineering

Nov 2020 – Jul 2023

C.B.S.E High School Education

Uttar Pradesh, India

High School (10th Grade) — 73%

Completed 2020

ACHIEVEMENTS & ACTIVITIES

- **Continuous Learning:** Actively upskilling in system design, advanced React patterns, cloud deployment (CI/CD), and advanced SEO through self-directed study alongside B.Tech coursework.
- **End-to-End Delivery:** Independently designed, built, and deployed multiple production-grade full-stack applications with zero guidance, demonstrating ownership and engineering autonomy.
- **Open Source Practices:** Maintains GitHub repositories using professional branching strategies (feature branches, PRs, commit hygiene), reflecting industry-standard version control habits.
